Why? Not washing hands with soap and water prior to touching your contact lenses is a risk factor for complications related to contact lens wear 1, 2, as germs from the hands are transferred to the contact lenses and the lens case 3, 4.

### **Show Me the Science | Contact Lenses | CDC**

A contact lens, or simply contact, is a thin lens placed directly on the surface of the eye. Contact lenses are considered medical devices and can be worn to correct vision, or for cosmetic or therapeutic reasons. In 2004, it was estimated that 125 million people worldwide use contact lenses, including 28 to 38 million in the United States. In ...

A mating system is a way in which a group is structured in relation to sexual behaviour. The precise meaning depends upon the context. With respect to animals, the term describes which males and females mate, under which circumstances; recognised systems include monogamy, polygamy (which includes polygyny, polyandry, and polygynandry), and ...
