The effect of silence on tinnitus perception

The Silence of the Senses Charles Travis There is a view abroad on which (a) perceptual experience has (a) representational content in this sense: in it something is represented to the perceiver as so. On the view, a perceptual experience has a face value at which it may be taken, or which may be rejected. This paper argues that that view is mistaken: there is nothing in perceptual ...

The Silence of the Senses - MIT

What do you do with those uncomfortable silences which can bedevil human interactions? Those 'tumbleweed' moments, those 'angels passing', those thoroughly awkward vacuums in the conversation where everybody looks at the ground and hopes like crazy that someone else is going to step in?

Uncomfortable Silences | Self Hypnosis Downloads

Silence Creates New Brain Cell in Two Hours: The brain changes functionally and structurally all the time. In a recent study, Duke University regenerative biologist Imke Kirste was trying to see which one might spark the creation of new brain cells.
