[Intervention Review] Interprofessional collaboration: effects of practice-based interventions on professional practice and healthcare outcomes Merrick Zwarenstein¹, Joanne Goldman², Scott Reeves³

Interprofessional collaboration: effects of practice-based

The link between miscommunication and poor patient outcomes has been well documented. To understand the current state of knowledge regarding interprofessional communication, an integrative review was performed.

Interprofessional communication in healthcare: An

LOEX Annual Conference - Breakout Sessions

Nurse practitioners (NPs) and physicians have worked together to manage patients since the inception of the NP role in the 1960s.¹ Because the underserved and rural areas lacked primary and specialty care physicians, the NP role eventually evolved to one of a collaborating midlevel provider.² The integrated use of NPs and physicians together ...

Strategies to Overcome Barriers to Effective Nurse

Interprofessional education (IPE) is defined as an intervention where the members of more than one health or social care profession, or both, learn interactively together, for the explicit purpose of improving interprofessional collaboration or the health/well being of patients/clients, or both.
