â€” The spine-tingling howl of the wolf, rarely heard these days across most of this vast country, is fading from another outpost. Sometime this fall, wildlife biologists will trap the last four red wolves still loose in the Great Smoky Mountains National Park, which straddles the Tennessee-North Carolina border.

Wolf reintroduction involves the reestablishment of a portion of gray wolves in areas where native wolves have been extirpated. Reintroduction is only considered where large tracts of suitable wilderness still exist and where certain prey species are abundant enough to support a predetermined wolf population.
