Teaching Math through Problem Solving | Math Solutions

What is understanding? "We understand something if we see how it is related or connected to other things we know." J. Hiebert, Signposts for Teaching Mathematics through Problem

Teaching for Conceptual Understanding: Exciting Mathematics

We can work on problems within mathematics and we can work on problems that use mathematics as a tool, like problems in science and geography. Mathematics can describe and explain but it can also predict what might happen. That is why mathematics is important. Learning and teaching mathematics Learning skills and remembering facts in mathematics are important but they are only the means to an ...
